- **We are a British company, generating desirable vertical products**

- from our lead position in providing software, and services for interactive video applications to a converged base of devices
- providing complex video solutions, applications and services, and products over mobile telephony and IP with unparalleled capability for interactivity and control with live video
- Bespoke Qeeps (feeding AI, Image analysis, man-down, etc)

Vemotion

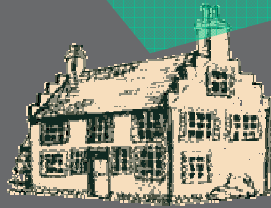

- **Qeeps™ provides two-way security**
- **NOTHING to change on the DVR**
- **Solutions, controls, with live video to the phone**
 - *In alarm mode, the phone disturbs and shows live video if movement is detected! Everything gets recorded for evidence.*
 - *Any time, simply connect to your premise, and look around*
 - *Control DVR-connected devices - anything with a relay or voltage-controlled interface ... lighting, curtains, Aircon, etc with LIVE video confirmation of what you execute.*
- Qeeps™ sells through channels - distributors who supply the system to security providers for homes and businesses
- Continuous developments

- **Qeeps™ requires:**
 - a DVR (or any Qeeps-ready device)
 - Broadband (or similar)
 - Mobile device connected over an IP-enabled bearer: eg. Any mobile phone having GPRS or better, running **Symbian**, **Java** or Windows Mobile / WinCE
- **Qeeps™ continues to develop:**
 - More DVRs integrated
 - Maritime, Home / Office control
 - Building Management Systems
- **Highly Secure (multiple levels of security)**
- **Infinitely scaleable (distributed server base)**
- **Class A platform (Docklands colo)**

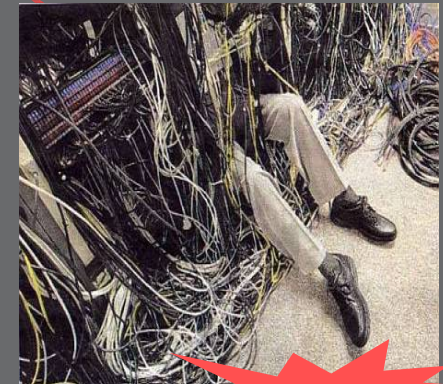

**Are the kids okay?
I'll just close the drapes
Hey, see if they did the washing up!**

**Temperature too high in Comms Rack 11
OK let's just turn the cooling up in there**

**Phone rings:
Live video shows the reason for the alert
Or switch cameras, or look at the archived footage
Or automatically notify your security company**

ALERT

- Qeeps has established itself as the brand where handheld / mobile connectivity to the remote premise is required:
 - DVR manufacturers, CCTV suppliers
 - Security providers
 - Security equipment distributors
 - Home / office control providers
- In use at: Shops, Banks, Councils (CCTV and security), Homes, Education, Military providers, Home builders (Estates) ...
- Major security companies design services around Qeeps™

- NOTHING to change at the premises
 - Qeeeps sees right into the entire internals of the DVRs
 - and direct to stand-alone cameras and devices
 - and will control anything while you watch live

- Qeeps integrated:
 - Videoswitch
 - Watchnet
 - Genitronics
 - Digital Micros (DM)
 - Vista (Norbain)
 - Mitsubishi
 - Dowshu
 - Pelco
 - Intellix
 - Heitel
 - Lelin
 - Samsung
- Qeeps integrated:
 - Baxall
 - Videcon
 - various re-badged
- Qeeps in progress:
 - Crestron
 - AMX
 - Niko
 - Rako
 - Lutron
 - PMN
 - Dolphin Marine
- Qeeps partners:
 - Fujitsu
 - Cogo
 - Paradigm
 - Virtus
 - Carphone Warehouse
 - Safeguard
 - TT Office
- Qeeps distributors:
 - ADI Gardiner
 - Norbain

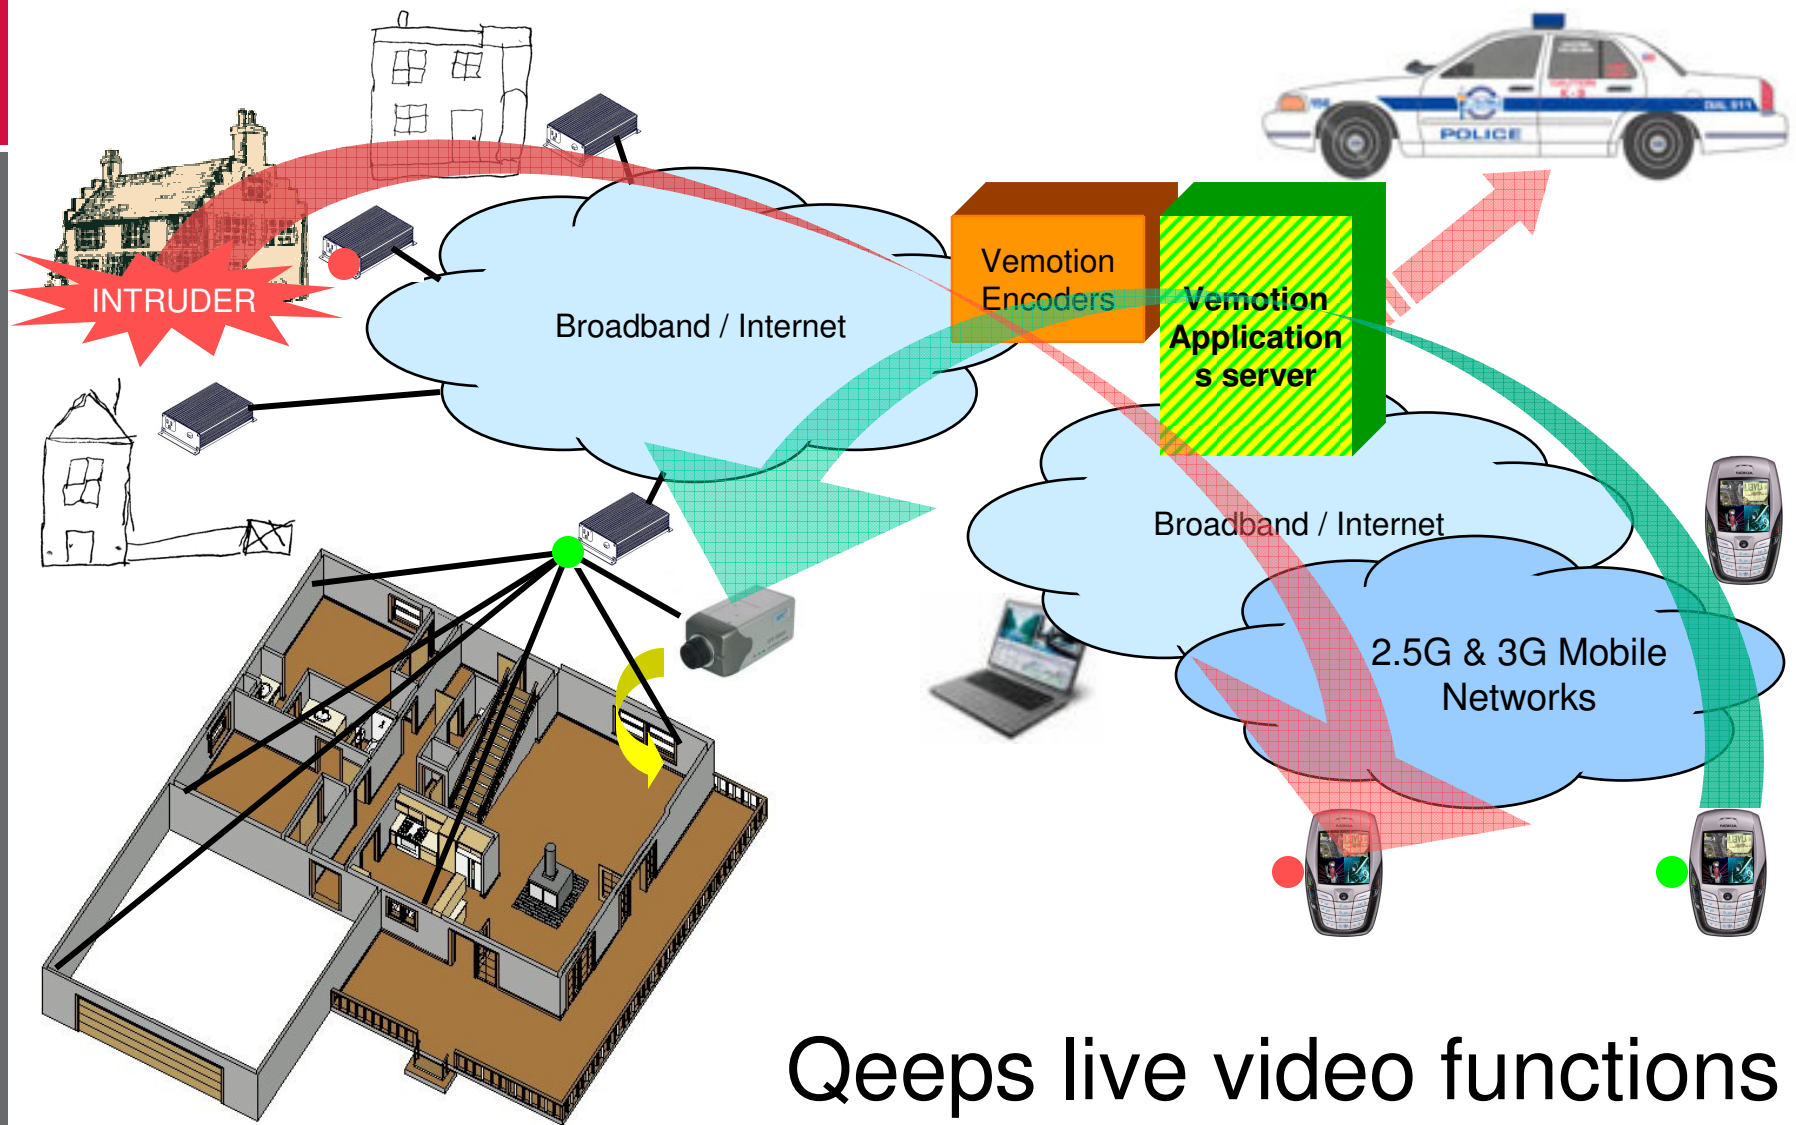

- Qeeps Watch
 - Simple entry level
- Qeeps Guard
 - SME, Corporate
- Qeeps Professional
 - Programmable, extensible, suitable for projects
- Qeeps Managed
 - Soup to Nuts, eg Southern Water, Newcastle Council
- Qeeps Lite

- Component range from project work
 - Applications: eg man down, safe house, rapid deployment
 - Remote control with live video confirmation to handheld device
 - Remote encoding, on-personnel, in-vehicle, tripod disposable
 - Remote control of camera characteristics

Keeps live video functions

- Sold 'Qeeps™' branded or white label
- Ideal for branding by service providers and security providers
- Ever-widening range of DVRs are now Qeeps compatible
- Ideal for combining with high-spec phone & tariff
- Reseller program, channel-based distribution
- Significant VAR opportunities: end-price is independent of channel's Qeeps 'buy-price'
- Co-branding leverages Qeeps brand traction

- Standard business model combines up-front charge and monthly revenue
 - Customer purchases Qeeeps licence (like MsOffice)
 - Customer pays monthly (or annually):
 - Subscription charge
 - Multiple tariffs containing:
 - » Bag of minutes
 - » Monitor rate and type
 - Usage charges

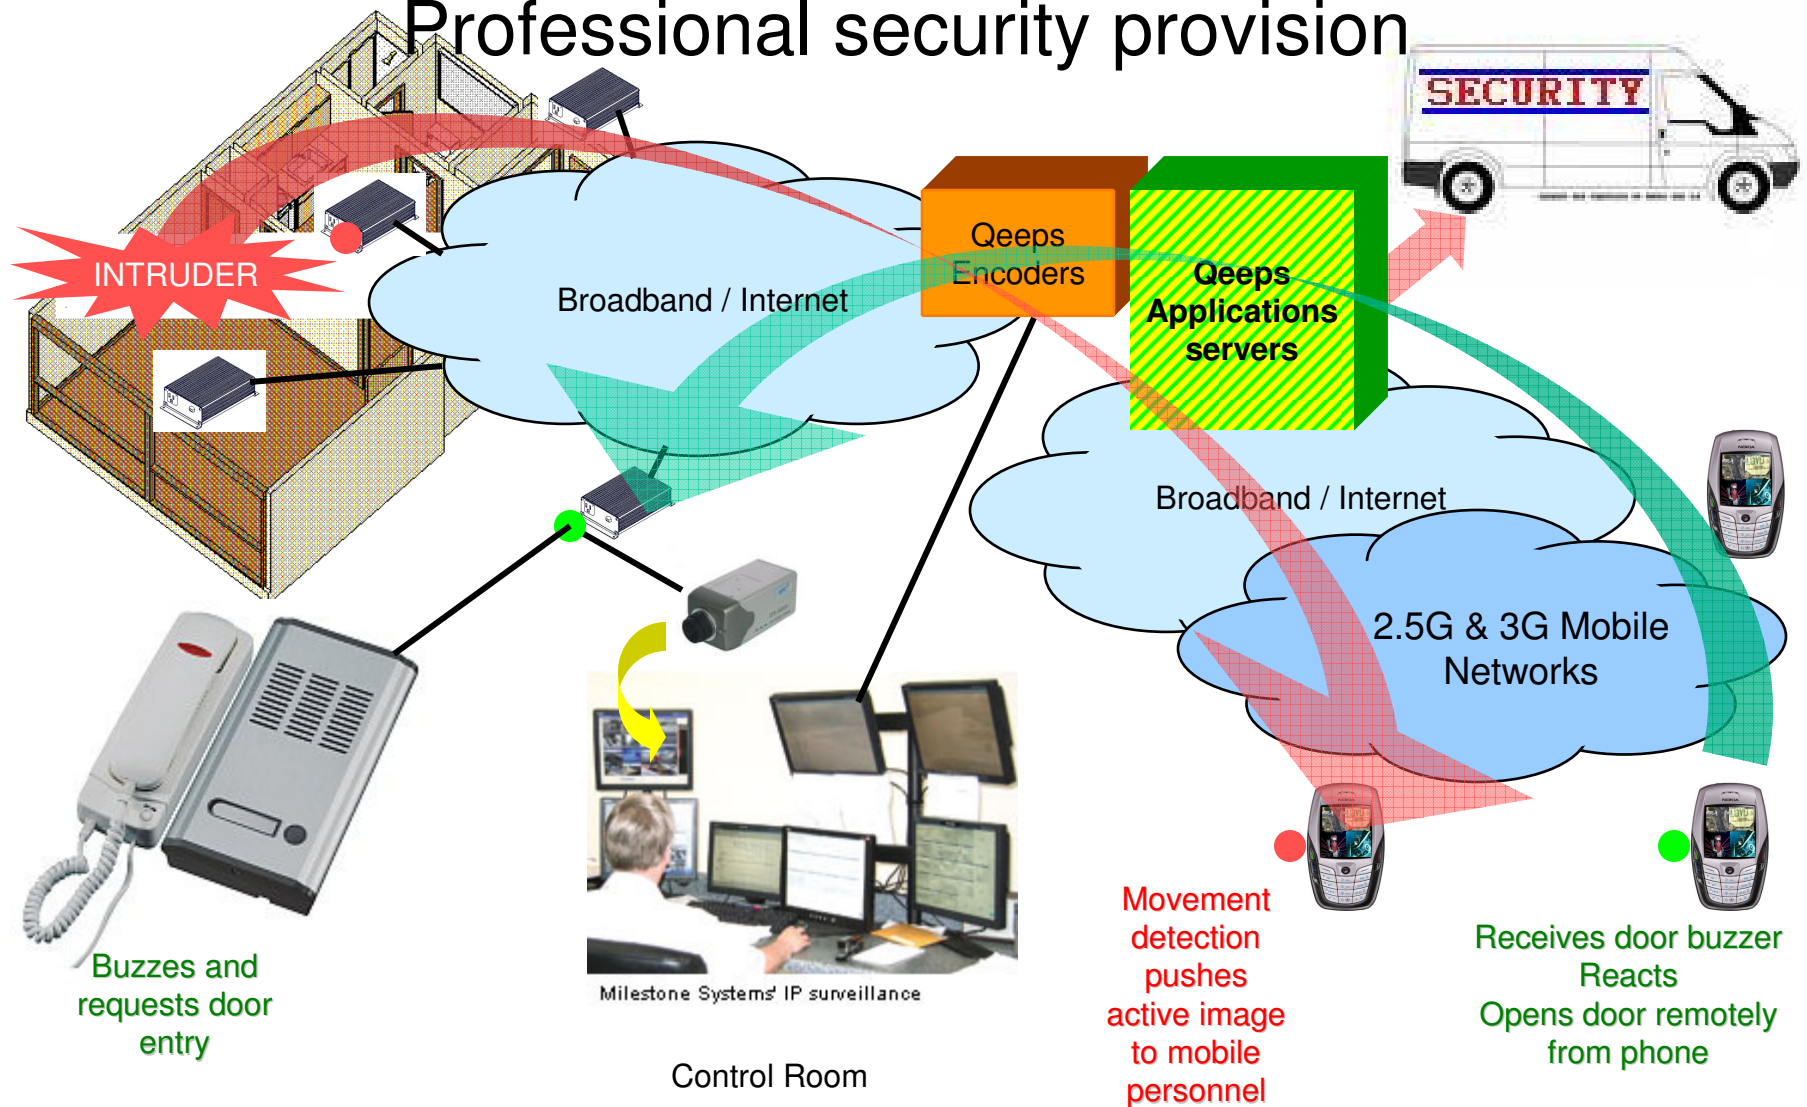

- Simple 'sell price' for licences to the channel
 - Volume-based discounting, pre-order quantities reduce price
 - Online ordering and provisioning
 - Web-based setup and maintenance
- Volume-based revenue share on monthly usage charges
 - (Not on subscription ... this pays for Vemotion support of Qeeps platform)

Example Qeeps deployment integrated into Professional security provision

- Deployments:
 - Homes, higher-net-worth, designer, new-build (large building groups), integrated services
 - SME
 - Gated communities, campus and individual premises
 - Malls, public places, shop chains, warehousing, car parks, transport, corporate buildings
 - Banks, Councils, high-risk areas
 - Security providers

**Qeeeps your place safe
Qeeeps you in touch**
Qeeeps™

Qeeeps™ you in touch
Qeeeps™ isn't just about being secure. You can check that the baby minder is minding your loved ones. You can see how your kids are getting on whilst you are out. Did someone feed the dog? Close the curtains?

Discreetly connect to your Qeeeps™ system, pick a camera and start viewing, and you can quickly move between cameras.

Qeeeps™ you informed
Arm your system as you leave, using your phone. Adjust the way the chain of notifications works when motion is detected or a trigger sets off an alert.

If an alert goes unacknowledged, Qeeeps™ will use the next method in the chain you defined. You can connect immediately and see the live, and recorded action for yourself.

Qeeeps™ you secure
Relax knowing that your Qeeeps™ system is silently monitoring and recording everything that you care so much about. Review footage anytime, and you can even write evidence straight to CD in evidence (TV) quality video.

Qeeeps™ you in control
Add a whole host of extras to your Qeeeps™ system to build up your automated home / workplace system. Now you can remotely control your environment, and receive warnings from key devices within it.

Qeeeps is powered by the world leading technology of Verintion - learn more at www.verintion.com
Qeeeps is a subscription based service - a range of tariffs are available to suit your usage needs. For a list of compatible mobile phones, and for terms and conditions, see our website at www.qeeeps.com or contact info@qeeeps.com
